

Category	Weight	Scoring	Requirement
Basic Preparation	2	0-1	Ready to go at the start of section
Cleverness	2	0-2	The hardest points on the rubric
Code Submission	4	0-2	Submitted correct content on time and to the correct location in the repository
Decomposition	4	0-2	Project is adequately decomposed to different classes and methods
Documentation	4	0-2	Comments for each class and each function are clear and are following style guides
Effort	2	0-2	Perform considerable amount of work
Naming	2	0-2	Variable names and method names are readable and are following the naming conventions of the language you chose
Overall Design	5	0-2.5	Have nice approaches and structures in overall
Participation	5	0-2.5	Interact with the group 2 times (ask a question, make a comment, help answer a question, etc.)
Presentation	4	0-2	Present the code clearly
Set up mock testing environment for back-end testing	4	0-2	1 point: Basic testing environment has been set up 2 points: Tests the API request methods written to actually interact with data
Test out front end elements and screen transitions using StoryBoard & Playground	4	0-2	1 point: Uploads designs on Storyboard and tests minimally the interactions and buttons using just AutoLayout. 2 points: Ties together code and Storyboard by using code to finish required transitions and animation.
Create view-controller scaffolding	4	0-2	1 point: Has rudimentary view-controllers that map the UI and UI interactions with the underlying data. 2 points: View-controllers are actually usable and allow users to interact with the UI and also the data that is binded to the UI.
